Attachment G1
Graduate Certificate in Emergency Medicine Research (90240)

Applicability of the Student Rules, Policies and Procedures

1. (1) The Student Rules in Chapter x of this handbook apply to students in this course.

(2) The Policies and Procedures in Chapter x apply except as otherwise indicated in the rules for this course.

Admission

2. To be considered for admission to this course an applicant must have

(a) the degree of Bachelor of Medicine and Bachelor of Surgery from this University, or equivalent as recognised by the Faculty;

or

(b) an undergraduate degree in a health-related discipline from this University or another recognised institution;

or

(c) a level of health-related education and a duration and level of professional experience which, in the opinion of the Faculty, would enable the applicant to complete the course.

Articulation

3. The [insert course name] articulates with this course. (if applicable)

   Example: The Graduate Diploma in Commercial and Resources Law articulates with this course.

Course structure

4. The course consists of units to a total value of 24 points comprising—

   (a) all units in Table (a) Graduate Certificate of Emergency Medicine Research core units—18 points

   and

   (b) One unit from Group A in Table (b) Graduate Certificate of Emergency Medicine Research —6 points

Satisfactory progress
5. To make satisfactory progress in a calendar year a student must pass units to a value of at least half the total value of units in which they remain enrolled after the final date for withdrawal without academic penalty.

Progress status

6. (1) A student who fails to make satisfactory progress for the first time is assigned the progress status of ‘Suspended’ by the Faculty.

(2) A student who fails to make satisfactory progress for a second time is assigned the progress status of ‘Excluded’ by the Faculty.

Table (a)— *Graduate Certificate of Emergency Medicine Research* core units

All units have a value of six points unless otherwise stated.

**Level 4**

PUBH4401 Biostatistics I

**Level 5**

EMED5xxx Research design in emergency medicine

EMED5xxx Evidence-based emergency medicine

Table (b)— *Graduate Certificate of Emergency Medicine Research* options

All units have a value of six points unless otherwise stated. Not all units are available each year.

**Group A**

EMED5xxx Special Topics in Emergency Medicine Research

PUBH5769 Biostatistics II

PUBH5805 Qualitative Research Methods in Health

PUBH5785 Introductory Analysis of Linked Health Data

PUBH5802 Advanced Analysis of Linked Health Data

PUBH5801 Economic Evaluation of Health Care

AHEA5801 Aboriginal Health Research and Ethics

MEDC5801 Development and Communication of Research
