Claire McIlroy, Senior Legislative Officer
Wanda Warlik, Project Officer/Faculty Executive Officer

By Invitation for Expert Advice:
Justine McDermott/Debra Paisley – Archives and Records Management
Brian Greene – Information Services

Terms of Reference:
The Committees Working Party has been established by the Registrar to consider a range of issues associated with improving the efficiency and effectiveness of committees within the University’s decision making processes.

The review will be undertaken within the context of the 2005 review – “Working Smarter through Committees” with a focus on affirming or modifying existing principles and introducing further efficiencies brought about, for example, by changes in technology, and the new governance requirements of NC2012.

It is anticipated that there will be two phases to the review:

Phase one will focus on a review of principles and practice, in particular:

1. Efficient flow of business through the committee system.
2. Effective use of committees complemented by efficient administration and management.
3. Streamlined management of agenda and minute documentation.
4. Impact and efficient use of technology in provision of agendas and minutes.

Phase two will focus on provision of appropriate procedures, documentation and dissemination, in particular:

1. Update and/or formulation of appropriate documentation, templates, standard operating procedures and websites.
2. Formulation of staff development workshops on the role of the executive officer.

Timelines:
Phase one: July – December 2012
Phase two: January – July 2013

13 July 2012
